January 1st, 2003.
Single.
Egyptian.
Delayed.

Projects

1) SR-Gym website by React js (Demo):
   -I used : React 18 , Hooks , Material UI for designing , Rapid API to get fake api
   and React-Router.
2) Pure JavaScript project ([contact list](contact%20list)) :
3) React app (movies) using (API) :
4) React App (SR-Notes) | (Demo) :
   -This project is used to write notes and the features that exist in this first version
   are: adding a note, deleting notes, searching for notes, and saving notes in local
   storage.
5) Pure JavaScript project (Cruds) :
6) Landing page ([Saeed's Design](Saeed's%20Design)) :
